

Just remember, it's Your Lake!

I grew up and lived most of my life in the lake area until I moved to Springfield MO in 2012. While in Springfield, I graduated from Missouri State University and began my career as a financial accountant. My wife and I found ourselves coming back to the lake every weekend, so in 2017 we decided to move back full time.

I have always had a fascination with real estate, especially here at the lake. As soon as we moved back, I knew I wanted to dive into the real estate world. My wife and I have since started investing in real estate ourselves and have many plans to continue to build our real estate portfolio in the future.

With my experience in the business / financial fields and my passion for real estate, I am dedicated to providing the utmost professional services to my clients. I have seen communication make and break many transactions in the business world, with that in mind I will work side by side as a team with my clients to do everything in my control to help accomplish their goals in obtaining a successful real estate transaction.
