

Just remember, it's Your Lake!

My father once told me, "To be successful in life, you must have a passion to succeed and have fun along the way."

After retiring from AT&T, a job which fit that description, I've found another career that also fits the mold, being a Real Estate professional. It's a fun, exciting, challenging and deeply rewarding profession! The joy and satisfaction of meeting and assisting people in achieving their real estate goals bring a smile to my face everyday.

I chose C. Michael Elliott & Associates based on their excellent client service, impeccable reputation and extensive knowledge of the Lake of the Ozarks Real Estate market. Owner/Broker, C. Michael Elliott has over 29 years experience selling lake properties.

I am proud to say; during my first week of business I completed a condominium transaction at our exclusive condominium development and look forward to guiding you in your real estate needs.

Even though my wife and I are transplants from Chicago, IL, where we grew up and attended school, we've both come to love Missouri and its great people, not to mention its wonderful environment. What a great place to live and enjoy life.

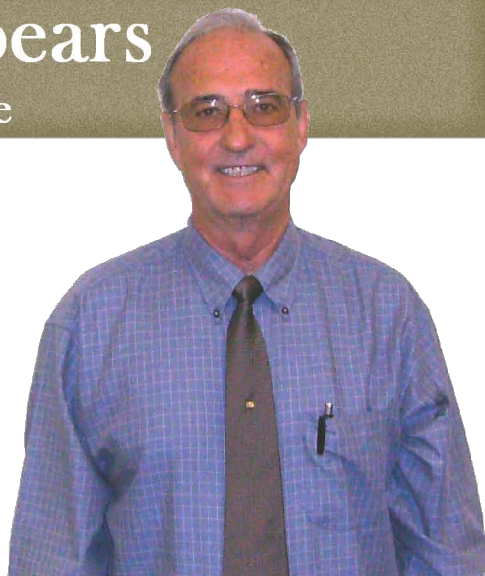

I guess you could say, when my clients achieve their objectives in real estate, whether buying, selling, or investing and I see that smile on their face, it makes me proud to know I helped along the way!

I am a member of the Bagnell Dam Association of Realtors® and Multiple Listing System as well as the National and Missouri Association of Realtors® which both allow me wonderful opportunities to network and share referrals throughout the country.

Speaking for myself and all the professionals at C. Michael Elliott & Associates, we promise to work hard to meet your real estate goals in a professional, thorough manner, and maybe we might just have a little fun along the way.

Just remember, it's Your Lake!
